Care Management

Care management is an important service that includes coordinating care and services that will help you deliver on the goals you identified in your Care Plan. Every Home Care Package, including those being self-managed will require some level of care management.

Approach to care management		<p><i>Our Care Managers visit you in your own home and determine your needs, preferences and wants regarding the services you require. They will work with you to establish an agreement that documents the agreed services. SWCC Care Managers also coordinate the delivery of your services and ensure your services align with other supports you have in place. Our Care Managers also make sure your services are delivered in a manner that maintains your dignity and your choices, while at the same time respecting your culture and any other specific needs you may have.</i></p> <p><i>Contact one of our friendly Care Managers to discuss your services and your needs and preferences.
